

INTERPHEX2010

Conference & Exhibition

April 20-22, 2010 | Jacob K. Javits Convention Center, New York, NY | www.INTERPHEX.com

The showcase for Science, Engineering & Manufacturing solutions for Pharmaceutical & Biopharmaceutical professionals.

The INTERPHEX exhibition is organized to provide product, services and technology resources, potential partnerships, world-class expertise, and networking opportunities for professionals involved in every aspect of the pharmaceutical and biotechnology manufacturing process, and it's all under one roof!

One event covers the many dimensions of the drug and biopharmaceutical manufacturing process.

Greater process complexity. Increased regulatory scrutiny. Securing your supply chain. Changing manufacturing business models. Evolving partnerships. Dynamic markets. Pharmaceutical manufacturing is becoming a more complex, multi-dimensional business that grows more challenging every day. And just one show covers it all!

Sell to the industry's largest and most qualified audience.

7,583 buyers and 12,343 industry professionals gathered side by side and face to face at INTERPHEX 2009. They rated INTERPHEX as "the best way to see new pharmaceutical manufacturing products & services" and for "offering the largest selection of products, technology & services."

"I will tell you that we had a fantastic show -I don't know what the final leads will flesh out, but I heard time and again that while traffic was lighter, the quality of customer/lead was much improved. Some have said that this show produced better results than year's past. I know you guys were worried, but I can assure you Siemens was very happy with the show overall. The buzz continues..." -Siemens
